

Medicana

Shaping Healthcare Spaces for 50 Years

Transform your booms to the latest generation of service heads.

Get a Boom Reno. Upgrade to First Class.

Upgrade to First Class.

Keep the invested capital value of your booms by simply renovating inexpensively. Your older series of service heads can be switched to the latest technology.

Save!!!

- Involves no construction
- Very little downtime
- Compact design creates more space
- Replaces aging supply lines

Modernize your room

iBox

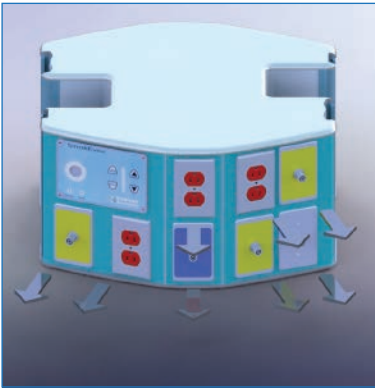

- ↳ Clutter busting design
- ↳ Curved panel design decreases interference between devices
- ↳ Distinct work zones separate services from quick-access work tools

Functionality

- ↳ Innovative accessory layout solutions
- ↳ Easy positioning and quick relocating of accessories
- ↳ Adaptable cockpit effect

Shelving

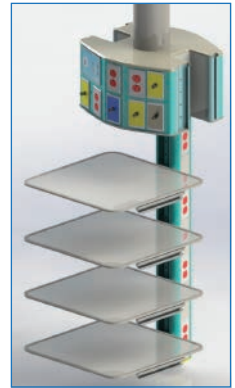

- ↳ Boom footprint is reduced thanks to recessed shelving
- ↳ Dedicated easy-access service positions on backbone improve biomed accessibility and cable management

Improved accessibility to services and devices

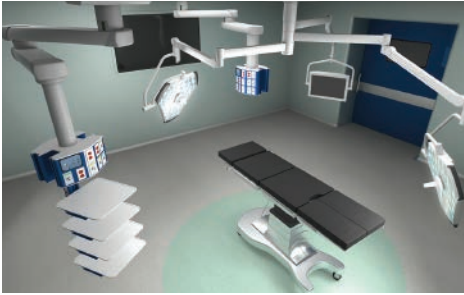

Customize your clinical workspace

Shelving sits below service head for a tidier workspace
